C. Horngren, G. Sundem, W. Stratton, H. Teall, and G. Gekas, **Management Accounting**, 5th Canadian edition, Pearson Canada Inc., Toronto, Ontario, 2007.

ISBN: 0-13-192268-8. **The text will be used extensively.**

Description:

This course is intended to introduce students to the concepts of management accounting. Topics covered include corporate goals, planning and control, cost accumulation for pricing purposes and product costing.

Credit/Contact Hours:

This is a 3 credit course with 3 lecture hours per week.

Delivery Modes:

For each topic listed, there will be a classroom lecture/discussion and a demonstration of related accounting procedures. I will assign relevant textbook readings and problems and test your knowledge, understanding and application of the material.

Regular classroom attendance is expected. Please do not be late. You should study each assigned reading both before and after it is discussed in class and apply your understanding by completing the required homework problems.

Adopting and adhering to effective learning habits in this course will likely take up a great deal of time so plan your schedule accordingly. Do not fall behind in the assigned readings and problems because it will be difficult to catch up.

Objectives:

This course is designed to help students understand the role of management accounting in contemporary business organizations. Upon completion of this course the student will be able to:

- Identify, categorize and analyze the behavior of costs.
- Utilize cost information in making decisions
- Prepare and use budgets
- Use accounting information to evaluate and motivate performance within organizations.
- Discuss standards of ethical conduct for the management accountant.

Transferability:
