### **Prerequisite(s)/co requisite(s):**

BA1120 Principles of Accounting

### **Required Text/Resource Materials:**

*Cost Accounting—A Managerial Emphasis*, Sixth Canadian Edition, Horngren, Datar, Foster, Rajan, Ittner, Gowing, Janz; Pearson Education Canada, 2013.

**The text book will be used extensively and is the required text for BA 2140.**

### **Description:**

This course is the first of a two part in-depth course examining the concepts of cost/managerial accounting. Major topics include the following: cost terminology, cost-volume-profit analysis, relevant costs and short-term decision making, responsibility accounting, activity-based costing, standard costing, variance analyses, product costing and cost flows.

### **Credit/Contact Hours:**

This is a 3 credit course with 3 lecture and 2 lab hours per week. Students are expected to attend all lectures and labs and to be on time for all sessions.

### **Delivery Mode(s):**

The course will be offered as three hours instruction and two hours lab per week for a total of five hours per week. The allocation of instructional time and lab time will be at the Instructor's discretion.

- For each topic listed, there will be a classroom lecture/discussion and a demonstration of related accounting procedures. Relevant textbook readings and problems will be assigned, and your knowledge, understanding and application of the material will be tested. Chapter quizzes will be administered either on paper during the weekly lab or electronically.
- The Final Examination, to be written in the gymnasium, will consist of multiple choice questions,

exercises and problems.

- Regular classroom attendance is expected. Each assigned reading should be studied both before and after it is discussed in class. Home work assignments, whether or not handed in should be completed to develop your understanding and application of the principles and practices.
- Assignments should be considered as professional submissions or presentations that would be prepared for either a supervisor or client. Therefore assignments should be neat (but not necessarily typed or computer generated), should contain proper spelling and grammar, should be in the appropriate format for accounting statements and should communicate the required information in an efficient effective manner. Marks may be deducted if an assignment does not meet the above criteria.
- This course requires a great deal of time and effort so plan your schedule accordingly. Do not fall behind in the assigned readings and problems because it will be difficult to catch up.
- **Moodle** is a Learning Management System used to improve communications between the Student and the Instructor. Important dates, documents and announcements will be posted on **Moodle**, and e-mails from the Instructor to the class will be sent using **Moodle**.
- **PowerPoint** slides will be used, and will be available for down load from **Moodle**.
- Unofficial Student marks will be posted on **Moodle**. Official Final Grades will be communicated via Student Services.

### **Objectives:**

Upon completion of this course, the student will be able to:

- Define and differentiate management, cost and financial accounting
- Understand and use Cost Terms
- Perform and interpret Cost-Volume-Profit analyses
- Utilize Job Costing in both Manufacturing and Service Industries
- Apply Activity-Based Costing and Management concepts to both manufacturing and service industries
- Understand and utilize master budgets, flexible budgets, calculate and explain variances and their uses in management of organizations
- Understand and explain the effects of variable and absorption costing and related inventory valuations and income effects
- Determine cost drivers and how costs behave
- Utilize all previous information to determine relevant costs and resultant management decision making.

### **Transferability:**

Note that BA 2130 and BA 2140 **together** are required for university transfer, or for transfer to various professional organizations. Students should refer to the **Alberta Transfer Guide** at <http://www.acat.gov.ab.ca> for a list of post-secondary institutions to which these courses can be transferred. Students are ***strongly advised*** to check with the receiving institution of professional organization for more details and to ensure current transferability.
