University of Alberta, Biology 2070 Laboratory Manual 2016/17. The latest version of the lab manual must be purchased. It will be available in the GPRC bookstore.

#### **DELIVERY MODE(S):**

Lectures – Tues and Thurs, 10:00 – 11:20, Rm J202

Seminars – Wed, 1:00 – 1:50, Rm J229

Labs – Thurs, 2:30 – 5:20, Rm J126

## COURSE OBJECTIVES:

Upon completion of the course, students should be able to:

1. Apply knowledge of the structure of molecules and cells to explain how genetic information is passed between generations.
2. Demonstrate an understanding of molecular biology through the study of genetic analysis.
3. Apply knowledge of laboratory skills and techniques to generate data and conduct analyses of that data.

## LEARNING OUTCOMES:

1. To gain an understanding of the basic principles of inheritance at the molecular, cellular and organismal levels.
2. To understand the molecular basis for mutation and how it applies to changes in genotype/phenotype.
3. To comprehend how gene expression is regulated in prokaryotes and eukaryotes and apply this knowledge to examples in molecular biology.
4. To develop the ability to design, analyze and report the findings of scientific experiments.
5. To foster critical thinking skills.

**TRANSFERABILITY:** UA, UC, UL, AU, AF, CU, KUC

**\*Warning:** Although we strive to make the transferability information in this document up-to-date and accurate, **the student has the final responsibility for ensuring the transferability of this course to Alberta Colleges and Universities.** Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at Alberta Transfer Guide main page <http://www.transferalberta.ca> or, if you do not want to navigate through few links, at <http://alis.alberta.ca/ps/tsp/ta/tbi/onlineSearch.html?SearchMode=S&step=2>

**\*\* Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.**

**EVALUATIONS:** Midterm Exam – 25%

Laboratory – 30%

Seminar – 10%

Final exam – 35%

The midterm exam will be held in class on **Tuesday October 18**. The final exam will be cumulative and will take place during the exam period. Failure to write the midterm or exam will result in a grade of zero unless appropriate documentation is provided.

**GRADING CRITERIA:** Please note that most universities will not accept your course for transfer credit **IF** your grade is **less than C-**.
