

GRANDE PRAIRIE REGIONAL COLLEGE

JAN 29 1999

SCIENCE AND TECHNOLOGY DEPARTMENT
BIOLOGY INSTRUCTIONAL GROUP

COURSE: BIOLOGY 2080 - PRINCIPLES OF ECOLOGY

PREREQUISITIES: Zoology 1200 or Botany 1990 or Biology 1080.
{NOTE: This course replaces Zoology 2310.
Students may not obtain credit for Zoology
2310 and Biology 2080.}

SECTIONS: One section is offered. The Winter Session
course is offered as a "normal" three hours
lecture/three hours lab course.

TRANSFERABILITY: U of A - Biology 208
U of C - Ecology 313
U of L - Biology 2200

INSTRUCTORS: Mr. Terry Shewchuk Dr. Georgia Goth
Office - J 221 Office - J 222
539-2986 (Office) 539-2863 (Office)
539-2953 (Lab) 539-2953 (Lab)
532-8091 (Home)

DESCRIPTION: Ecology is the scientific study of
interactions between organisms and their
environment in a hierarchy of levels of
organization: individuals, populations,
communities, and ecosystems. The course is
designed to provide a comprehensive survey of
ecological concepts that can stand alone or
serve as preparation for advanced courses in
ecology. Labs and field exercises emphasize
the collection, analysis, and interpretation
of data from ecological experiments and
complement lecture and seminar material.
Examples will be drawn from a broad range of
organisms and systems.

REQUIREMENTS:

A. Since presence at lectures and laboratories, participation in classroom discussion and projects, and the completion of assignments are important components of this course, students will serve their interests best by regular attendance. Those who choose not to attend must assume whatever risks are involved. In this connection, the attention of the students is directed to the Academic Guidelines of the College.

B. MidTerm Exam

C. One final Lecture Exam (Scheduled by the Registrar's Office during Term Exam Week)

D. Lab Reports

E. Occasional Lecture and Lab Quizzes and Reports

EVALUATION:

A. Lecture/Lab Quizzes	- 10%
B. MidTerm Exam	- 20%
C. Lab Reports	- 40%
D. Final Lecture Exam	- 30%
