**OFFICE HOURS:** Wednesday 9:00 – 10:00, Thursday 10:00 – 11:30

**CALENDAR DESCRIPTION:** Basic concepts on the organization of genetic material and its expression will be developed from experiments on bacteria and viruses during the course.

**PREREQUISITE(S)/COREQUISITE:** BI2070

**REQUIRED TEXT/RESOURCE MATERIALS:**

**Textbook:** “Principles of Genetics” by Snustad & Simmons, 7<sup>th</sup> edition, John Wiley & Sons Inc., 2016.

**Papers:** A set of historical journal articles have been selected for this course and will be available on Moodle. The papers will be studied during the seminar sessions and students will be tested on their content.

**DELIVERY MODES:** Lectures – Tues. & Thurs. 11:30 - 12:50, J229  
Seminars – Mon. 1:00 - 2:20, J201

**COURSE OBJECTIVES:** Students will gain a deeper understanding of bacterial molecular genetics, from a historical to contemporary perspective. Emphasis will be

placed on the ability to analyze and interpret primary literature related to molecular genetics.

**LEARNING OUTCOMES:**

1. To gain an understanding of how prokaryotes exchange genetic information.
2. To understand the molecular basis for processes such as replication, transcription, translation, mutation, DNA repair and recombination.
3. To comprehend how gene expression is regulated in prokaryotes and viruses.
4. To develop the ability to analyze and report the findings of scientific experiments.
5. To foster critical thinking skills.

**TRANSFERABILITY:** UA, UC\*, UL, AU, AF, CU, KUC

**\*Warning:** Although we strive to make the transferability information in this document up-to-date and accurate, **the student has the final responsibility for ensuring the transferability of this course to Alberta Colleges and Universities.** Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at Alberta Transfer Guide main page <http://www.transferralberta.ca> or, if you do not want to navigate through few links, at <http://alis.alberta.ca/ps/tsp/ta/tbi/onlineSearch.html?SearchMode=S&step=2>

**\*\* Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.**

**EVALUATIONS:** Midterm Exam – 30%  
Seminar – 30%  
Final Exam – 40%

The midterm will be held during class on **Thursday February 16**. The final exam will be cumulative and will be held during the exam period. Failure to write quizzes, the midterm or the final exam will result in a grade of zero, unless proper documentation is provided.

**GRADING CRITERIA:** Please note that most universities will not accept your course for transfer credit **IF** your grade is **less than C-**.
