Calendar Description:

SC 0100 Science and Society 5 (5-0-0) HS Time: 65 Hours

Description: This course is meant to increase the pre-high school student's understanding of connections between science, technology and society. You will be introduced to basic ideas about science, technology, biology, chemistry, physics, ecology, scientific method, along with related social issues.

Co requisites: EN 0090 and MA 0090 or consent of instructor.

Resource requirements:

No recommended textbook. Unit Tests will be based on class notes and activities.

Attendance:

Regular attendance is expected of all students. Success in education has been shown to be directly linked to attendance. Attendance will be taken during class. Any student **missing more than 15 classes may be debarred from writing the final exam.** Lateness is highly disruptive to a class. Please be considerate.
